THE Albany Journal (R p.) warns its Causes Some Damage In Sutter and MARYSVILLE, Cal., June 12.—A heavy norther has been blowing since yesterday which have swelled the prohibition vote morning and is doing considerable dambe removed. The Journal says plainly:

"The general statement, we believe, about one hundred feet long, of the bridge across the Butte slough, in Sutter county, were blown down early this morning, causing a suspension of travel by that route between Marysville and Colusa. Several wind mills have been demolished and other damage done. Great damage done to the fruit crop. Some farmers report half the fruit already whipped off. The wind storm is not blighting to grain. In Yaba county a portion of the grain fields are ripe enough to suffer loss by shelling out, and some loss will be sustained in consequence. In Sutter county but little grain is thus far advanced, and proportionately less loss will result.

Crrr of Mexico, June 12.—Croix Baker, member of the Canadian Parliament, and owner of the steamer Sardonyx has left this city for Victoria, B. C., after ordering a cessation of the trips of his vessel conveying Chinamen to Mexican coast towns from San Francisco and Vancouver Island. It is understood here that the vexican Pabliko Navigation Company and Mr. Baker could not arrange satisfactory terms for a continuance of the trips.

Valifaratio (via Galveston), June 12.

—A strong norther set to here last night, and all night there was a very heavy sea. Several vessels were lost. The Chilian bark Pondicherry and the Chilian steamer Guaycurus lost their anchors, and the former, after colliding with several ships, went ashore and became a total wrest Thirteen persons perished in the disaster, including the captain, and his wife and three children, and the mate.

TURF TOPICS New York, June 19.—The beautif weather to lay tempted about 60,000 of the lovers of horse-racing to the second day's running of the Coney Island Jockey Club at Sheepshead Bay. All ages, three-fourths of a mile— Pietch Taylor won; B-frain, second Favor, third. Time, 1:14%.

AS IT APPEARED AT AN OLD-TIME BAILE.

Spirit lightly hovered over them, but, when he had cessed, it passed up and up through the soft moonlight which seemed to enfold it in a silvery halo. Higher and higher it ascended, and fainter and fainter it grew, till finally it

one-sided. A person, in any kind of transaction, is supposed to get aomewhere near his money's worth. Why should it be any different in regard to water. The plea that there is not enough water has no grounds, for surely everyone can see that there is plenty of it going to waste down the river. The complaint arises from every side, that the water supply in the ditches is not near as good as last see ason, and that there are altogether too frequent short runs of water. Will some one interested please rise and explain the "why and wherefore."

bloom again.
"Mrs. Kohler's got to go home to morrow," said Mac, one sultry after-noon, as he and Pottle sat in front of the station waiting for the 3:30 train to come along. "What kin we do fur Pretty, then?"

said Pottle. "It breaks my heart ter see her lyin' thar with a death look on her face. She'll never git well." face. She'll never git well."
"Wonder who that Will was now, settling the tobacco in his pipe with his finger. "Some one; brother, per-

"I thought of that," said Mac; "young things like Pretty generally have a lover, and I'm glad on it; it's matural. I've been married myself.
My first wife was a lady—'' he sighed "A lady. 'Tain't pleasant to a man of 70 to think he's a rascal that oughter

"No, 'tain't," said Pottle.
"I'm thinking of a move," said Mac.
"Not ter leave the stashun," said

Pottle in alarm.

"No, not but for a day—one trip up on the 3:30 train and back to-morrow, leaving you to do double duty. I'll "What for?"
Mac sunk his voice to a deep sepul-

chral whisper. "I'm going for her folks: I know of them. I lived in Denver a good while; I know every-body there. Lucky McClure is one of there. Lucky McClure is one of go by here in the cars not long He'd been East looking for her; he's their adopted child; I've heard of Then that Miss Wallace she's her; buried her fellow. He was shot by her brother. That Rose McCord, came up to the graveyard prying around, and then she used to visit Mrs. Mullen, a lady I boarded with in Denver—" finished Mac, with a slight,

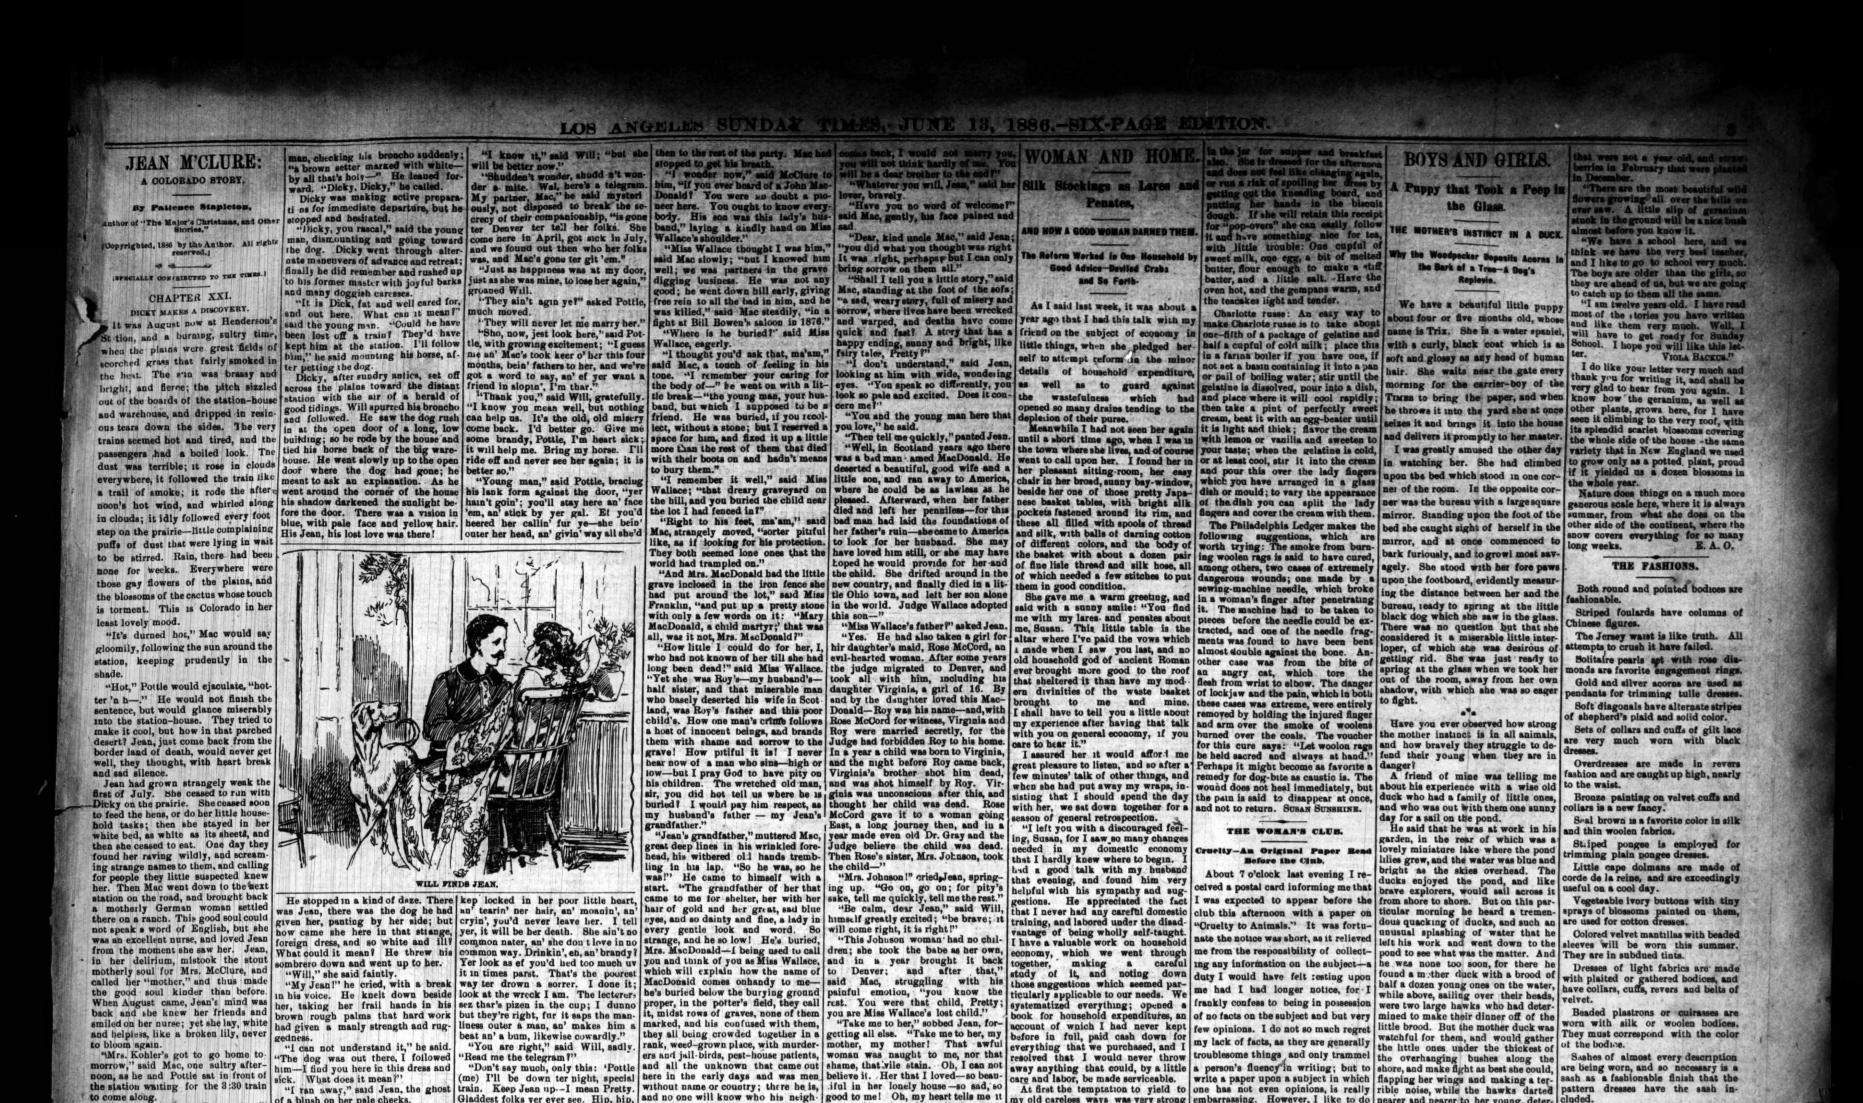

Denver—" mished Mac, with a slight, hesitating cough.
"That's a good idee," said Pottle.
'Tain't right fur us to keep the gal here; it will kill her. She's too bright and beautiful ter be sot way out her in the solitude of a railroad stashun; an' I've no doubt but they're searchin' everywhar fur her. Go, Mac, by all

silk gown Pottle had in one of his trunks. He explained it was Chinese; he had brought it from Pekin, and thought some day he might have a wife to wear it, and kept it waiting for that wife. It was of soft, blue silk, heavily embroidered in white, and tied at the waist with a white silk pard. Her long golden hair fell in

tied at the waist with a white silk cord. Her long, golden hair fell in curls about her shoulders, and her little white hands were almost lost in the wide sleeves of the wrapper.

"Wheel me out of doors, please, uncle Pottle," she said wistfully, and he could not refuse. He moved her into Mac's big chair, and wheeled it out into the back shed that looked out on the plains. He left her in the doorway and ran out every ten minutes to see if she wanted anything.

Dicky stayed around for awhile, very glad to see his mistress out again, but by and by a jack rabbit struck his faccy and he started in excited chase.

means."

"I'll slip off in these old clothes," said Mac, with much admiration of his own shrewdness; "she'd suspect if she see me fixed up."

"That's so. Good luck ter ye. Thar's the train," said Pottle, running to the switch.

Mac jumped aboard and the train whizzed on.

Thar's the train," said Pottle, running to the switch.

Mac jumped aboard and the train whizzed on.

"Going for supplies to Denver," said Mac to the conductor, and, as he was well known, this was a passport.

The German woman retired to her room to sleep. Pottle made signs to her that he would look after her charge. He went into the sick room. Jean was dressed in a queer flowered silk gown Pottle had in one of his trunks. He explained it was Chinese; he had brought it from Pekin, and thought some day he might have a wife to wear it, and kept it waiting for that wife. It was of soft, blue and should be an knew and thought now particularly hand told her in German—which Jean knew and thought now particularly delightful—that the young lover had knew and she would get well soon.

Pottle surpassed himself on the supper he got. With a gloomy countenance he fed the broncho and with a vicious twist he wrung the neck of his best pullet as a sort of sacrificial effecting to Jean's lover. This was the way jealousy and regret affected him, otherwise he relaxed from his usual silence, and became quite talkative.

After supper, where Jean was rosily happy but rather shy. Pottle called the young man into the telegraph

if it had been me. I was a lad of spirit, sir."

"I'll warrant you were," said Mc-Clure. I said to Bid—Mrs. McClure—when you came here, and so old, and such a strange journey, that you were a man of mettle—true gold, air, and no alloy; and the lad is like you."

"I'm pleased he is," said the Captain, heartily. "My daughter was a noble woman, but I was bitterly angry with her for not leaving Curtis. I may have been unjust. As I get older and nearer the grave I think of it more. I know that I was unjust."

"After all, the Bible says a man must leave all his kin for his wite," "Never, Jean," he said firmly. "That black past was not of our making; our young lives, our happiness, and he helated by it."

gedness.

"I can not understand it," he said.

"The dog was out there, I followed him—I find you here in this dress and sick. What does it mean?"

"I ran sway," said Jean, the ghost of a blush on her pale cheeks.

"Tell me all," he said, holding her hands closer. And she told him why she left; and how the old men had cared for her and given her a home, and how she had been near death, and that she had been near death, and that she had been near death, and that she thought she would never be well again.

"You will now, Jean," he said will selected a man, an makes him a beat an' a bum, likewise cowardly."

"You are right," said Will, sadly.

"Read me the telegram?"

"Don't say much, only this: 'Pottle (me) I'll be down ter night, special train. Keep Jean up—I mean Pretty.

"I can not understand it," he said.

"You are right," said Will, sadly.

"Read me the telegram?"

"Don't say much, only this: 'Pottle (me) I'll be down ter night, special train. Keep Jean up—I mean Pretty.

Gladdest folks yer ever see. Hip, hip, huroor. Welcome the coming, speed the going guest."

"He's a great han' fur po'try," said for her and given her a home, and how she had been near death, and that she folks must have paid fur that telegram. "What'll we dot' "

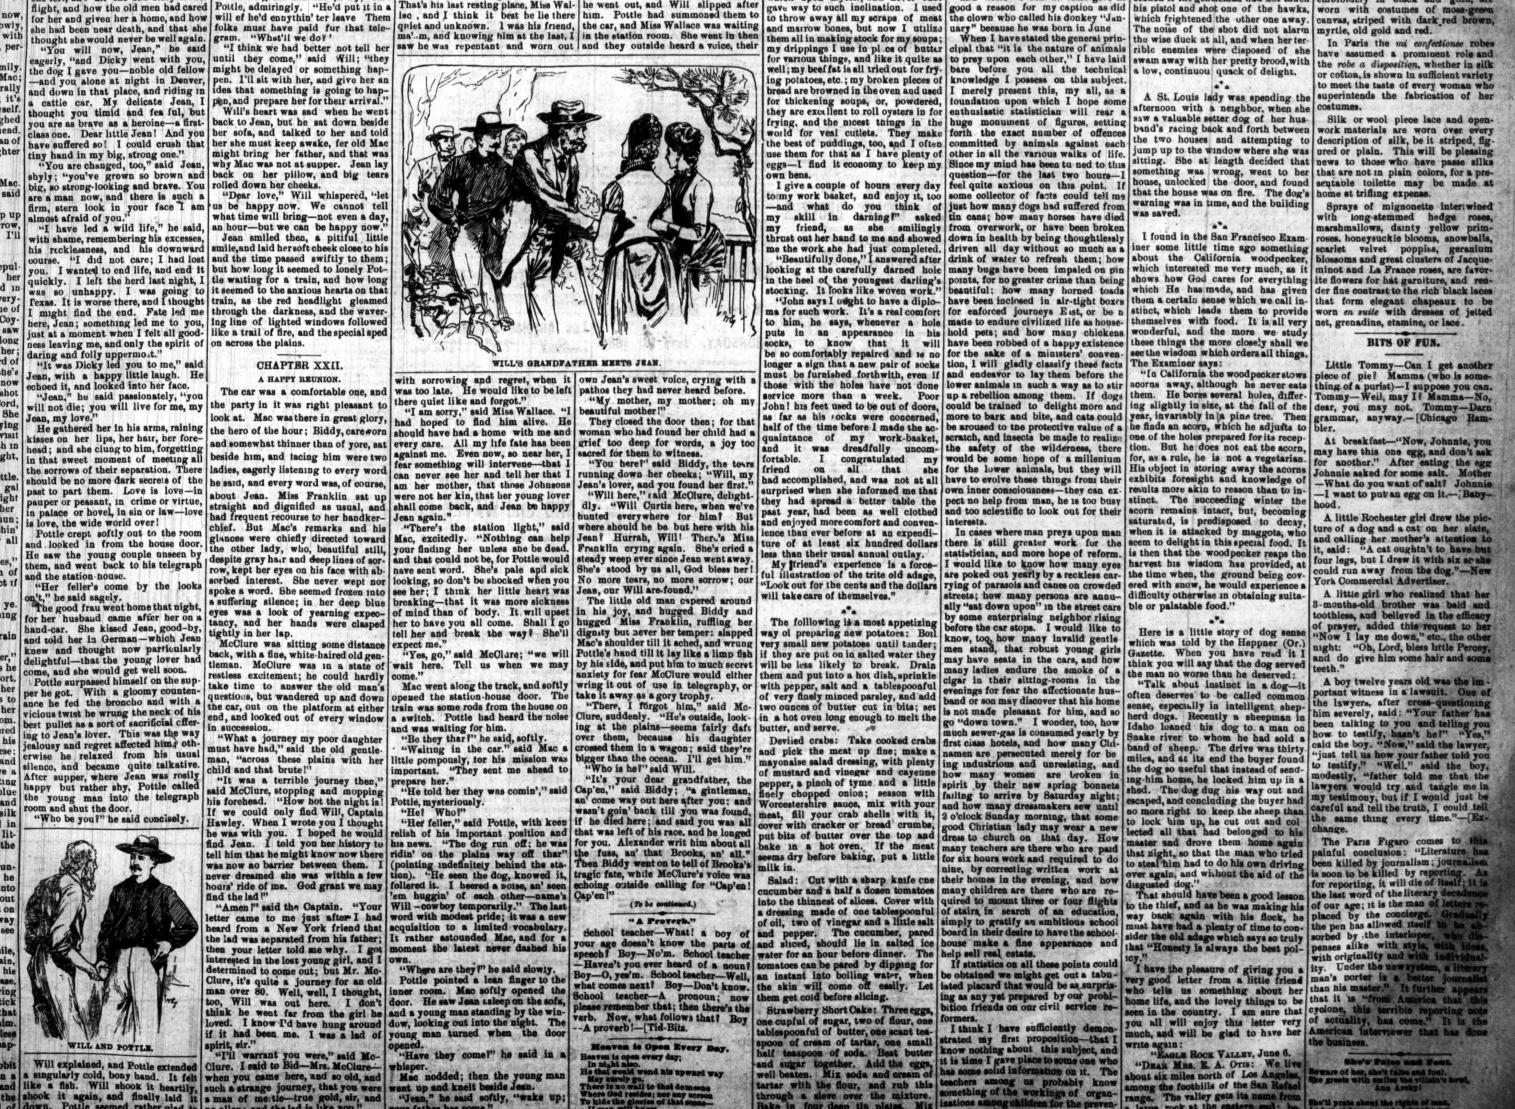

"You will now, Jean," he said eday of something hap—"

"I take me to her, "Take me to her," setting all else. "Take me to her, my mother! That awful will, sadly.

"Take me to her," setting all else, "Take me to her, my mother! That awful wills, sadly.

"Take me to her," setting all else, "Take me to her, my mother; they all being crowded together in a beat an' a will being crowded together in a mank, we ed-grown place, with murder-with who we hand all the unknown that came out when the to early days and was men there in the early days and was men without name or country; there he is, iful in her lonely house—so sad, so good to me! Oh, if in the first and no one will know who his neight when he'll rise and get his sentence.

That's his last resting place, with murder-with unknown. I

Strawberry Short Cake: Three eggs, one cupful of sugar, two of flour, one tablespoonful of butter, one scant teaspoon of cream of tartar, one small half teaspoon of soda. Beat butter and sugar together. Add the eggs, well beaten. Mix soda and cream of tartar with the flour, and rub this through a sleve over the mixture. Bake in four deep tin plates. Mix three pints of strawberries with a half plate of strawberries with a half plate of strawberries with a half plate of strawberries with a half

formers.

I think I have sufficiently demonstrated my first proposition—that I know nothing about this subject, and it is time I gave place to some one who has some solid information on it. The teachers among us probably know something of the workings of organizations among children for the prevention of cruelty; but I have never been a teacher, a mother, or years a grand.

those suggestions which seemed particularly applicable to our needs. We systematized everything; opened a book for household expenditures, and socount of which I had never kept before in full, paid cash down for everything that we purchased, and I recolved that I would never throw away anything that could, by a little carg and labor, be made serviceable. At first the temptation to yield to my old careless way was very strong at times when I felt a little overtaxed and wearied, but I kept a very strict watch upon myself, and never once and wite—I can at least give as and wearied, but I kept a very strict watch upon myself, and never once and wite—I can at least give as and marrow bones, but now I utilize and wearied, but I kept a very strict watch upon myself, and never once and wite—I can at least give as and marrow bones, but now I utilize the main marrow bones, but now I utilize them all in making stock for my soups; my drippings I use in pl. ce of butter for various things, and like it quite as well; my beef fat is all tried out for fry-live mined to an ever well and solven the main of not save and make their dance of white above, sailing over their heads, which determined to make their dinner off of the with on make their dinner off of the mittle brood. But the mother duck was title brood. But the mother duck was title brood. But the mother duck was title brood. But the mother duck was the little brood. But the mother duck was the the color was the the color was the cold by a little brood. But the mother duck was the the ones under the thickest of the overhanging bushes along the buttle ones. Under the thickest of the overhanging bushes along the buttle ones. Under the thickest of the overhanging bushes along the buttle ones, while the hawks darted flapping ber wings and making a termined to seize them for their prey. And they probably would have succeeded if the gentleman had not taken the color was and making a termined to seize them for their prey. And they probably would have succeeded if the gentleman

even in the hottest weather.

Effect of Hot Drinks.—By direct experiment on human subjects, and the use of a tube for examining the contents of the stomach at intervals, Dr. V. E. Nyeshel, of St. Petersburg, has ascertained that a healthy person may drink three tumblersful of hot tea after a meal without perceptibly affecting digestion, but that a greater quantity of hot drink retards the digestive process. No difference could be detected between the rate of digestion of hot and cold food.

Lake Rivers.—Surveys made during the past two years have shown that the river Rhone has cut for itself a channel in the bottom of Lake Geneva, through which it flows, between parallel banks, like an ordinary stream on the earth's surface. The Rhine makes

Physicists find two kinds of progress in space—that of matter and that of form. A bullet discharged from a gun represents the former, while the ever-widening circles which follow the plunge of a stone into a pool of water illustrate the latter.

The largest crystal of alum ever produced, weighing over eight tons, has been sent to the Edinburgh International Exhibition from the Manchester and Goole Alum Works.

Water Purification.—In a recent address in London, Dr. Percy F. Frankland remarked that the earliest attempts at purifying water were confined to the removal of suspended particles, but at a later date chemists gave attention to the invisible dissolved substances. When it became known that some, if not all, zymotic diseases are due to living germs, the fact was recognized that the microscopic organisms in water might be a source of danger. Filters were at first supposed to be of no value in removing these organisms, but various filtering materials—such as coke and animal and vegetable charcoal—zre now known to be very efficient when frequently renewed. Agitation of the water in contact with similar porous solids has considerable effect, while land remarked that the earliest at the precipitation process for softening water with lime produces a reduction of 98 per cent, in the number of micro-organisms. Natural filtration makes the water of many deep wells almost entirely free from organic impurities. For a number of months the water supplied to London has been regularly tested, and during the last four months of the past year the purification processes employed were found to remove from 93 to 98 per cent. of

makes the water of many deep wells almost entirely free from organic impurities. For a number of months the water supplied to London has been regularly tested, and during the last four months of the past year the purification processes employed were found to remove from 93 to 98 per cent. of the invisible life forms crowding the water of the Fhames and the Lea.

Trees as House-Plants.—A very pretty pranament for the house or lawn is a dwarfed white oak, some enthusiasts making veritable pets of these miniater lords of the forest. The plants are readily raised in flower-pots from the acorns, and require no attention except watering. The dwarfing of the trap root every spring for a few years, this process keeping the tree of diminutive size while it does not prevent the ordinary development of new branches.

Salts of copper—usually regarded as very poisonous—have been administered by a French chemist to dogs and rabbits without serious effects either from large doses or from a long continued regular use of the substances.

DIPLOMAS HANG IN OFFICE.

Lumber Company, CATARRH Trested upon a new principle, founded upon the fact now generally schnowledged by the most scientific men, that the disease is caused by the presence of living parasites in the tissues. The parasites can be demonstrated by aid of the microscope, and will present the appearance given below: Lumber and Building Material Yard, 180 First Street

(Parasites from nose magnified 480 times.)

The disease is first located in the anterior part of the nose, and the patient seems to have a cold in the head from which he is scarcely ever free. This gradually extends to the posicrior nares, and mucous is drawn back into the throat, or merely drops into the throat, especially in the morning. There is often a desire to clear the throat, especially before speaking.

In some cases ulceration very soon commences, which may involve the bones of the nose or face, and pleces of bone may be discharged. The breath may become so effentive as to make the sufferer a burden to himself and isola.e him from society.

So various are the symitoms that the patient is often unware that he has chronic catarrh, and attributes the trouble to merely a cold, and thinks it will soon pass off, and his mistake is not recognized until such symptoms become apparent as denote the rapid progress of the disease to the lu gather than the college of the disease is the lu gather dissingles of the disease in the lu gather of dissiness, impaired memory, despondercy, etc.

Very many cases of indigestion and bowel rasites from nose magnified 480 times.)

very many cases of indigestion and bowel troubles are due to catarrh, and can be very readily cured.

The doctor makes a suppository that is a sure cure for blind, bleeding or ite hing piles. Minely per cent of cases of catarrh, whether of one or forty years' standing, can be permanently cured by the system.

Chronic Bronchitis is merely eaterrh of the lungs, and can readily be cured by inhalations, combined with constitutional remedies for the liver and blood and to build up the general system.

CONSUMPTION

would have recovered if nature had been assisted in expelling the sticky or hardened mucous from the lungs. The climate could then better exert its beneficial influence. The inhalation treatment meets all the requirements whereby the healing remedies reach directly the seat of the disease, and will ease the cough, facilitate expectoration, contract and heal cavities, as well as promote healthy and refreshing sleep. With this system the patient often recovers after all hope by other means has been 4b indoned. With every case of lung disease the proper constitutional remedies should be administered to build up the general system. The treatment can be used at home without detention from business.

detention from business.

The following testimonials will show the rapidity with which we can cure diseases of our specialty. Hundreds of these can be seen at effice:

This is to certify that I am regularly qualified physician, but not practicing, and have always believed catarrh of chronic neast variety to be an incursable affliction, but hearing of Dr. W.N. Davis "New Treatment," and his wecces, I applied to him for medicine, and determined to try it in the case of one of my friends, and did so with the most satisfactory results, as improvement was immediate, and one prescription effected a cure. The case was of years standing and of a very severe type. I can recommend Dr. Davis to those similarly affected.

Los Angeles, Aug. 1st, 1885.

January 2, 1886, Dr. Haley testifice that the case he treated five months ago is still a cure. Dr. Haley is now practicing law at 45% N. Spring st.

This is to certify that I was troubled with estarrh of the dry variety for a broudled with since three sears before I came to Oali/ornia, and in one month I fe-! that I have been entirely cured by your remedies. Los Angeles, July 4, 1885. P. O. Box 825. This is to certify that I was troubled for six years with what seemed to be an incurable disease that had resisted the abilities of some of the best physicians of San Bernardino, Los Angeles and San Francisco. I then determined to try homeopathy, and consulted Dr. W. M. Davis, 45 M. Spring st., Los angeles, and within two months i was entirely cured.

Anaheim, Oal.

Anaheim, Oal.

Los Angeles, Sept. 14, 1885.

DB. W. N. DAYIS—Dear Sir: I beg to acknowledge the benefit I have received from your Homeopathic remedies, which I consider almost miraculous.

I was troubled for three years with a complication of the asse which had baffled the third of ten allopathic physicians. Some said I had Bright's disease, others spinal disease, and ethers heart-disease.

I was troubled with pains all over my body, was confined to the house and was almost paralyzed. Now, after treating with you for little over a month, I am free from pain, and can walk half a mile without difficulty. I go to church and sit through service with no inconvenience, which I could not do before.

I am still improving in ast-ength, and think in a few weeks more I will be a well woman. Thanking you for what you have some for MRS. MARY LOUTHAN, No. 422 South Los Angeles st. October 20, 1885, Mrs. Louthan testines that she is entirely oure.

This is to certify that I have been trou

This is to certify that I have been troubled for four years with bronchitis, and in six weeks I have been almost entirely cured by Dr. W. N. Davis, and have had no sufficetive attacks since I commenced treatment. I can recommend Dr. Davis to any who are troubled with the lungs or throat.

MRS. M. S. STEVENS.

Mich at Pearl.

Los Angeles, Jan. 27, 1886. This is to certif hat I have employed Dr.
Davis with very satisfactory results, and
would recome. "A him as a physician to any
of my lady friends.

MRS. M. J. BUHLER,

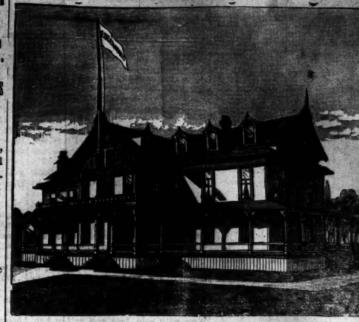

DOR Angeles, Ft.D. 2, 1886.

DR. DAVIS: If it were not for you I am satisfied that I would now be dead with lung disease, which had troubled me for two years, as at the time I commenced treatment last summer I was so low that I could not continue my trip East after starting, and was obliged to return from Mojave. I wish to testify that I was entirely cured in three months, and found your charges very reasonable.

MRS. H. P. MERSEREAU, 22 Bernard street.

Los Angeles, Feb. 3, 1886,

Miscellaneous. CONDIDO

The Paradise of Southern California!

The new Escondido Hotel, containing forty-five rooms, will be opened in two weeks by Thomas Riley. The 'amous Escondido tract contains 12.514 acres of the most beantiful and fertile land in Southern California and the rich Escondido gold mines. It is located 35 miles north of the city and harbor of San Diego and 12 miles east of the California Southern Railroad High mountains protect the grand valley from wind and for. The altitude is 700 feet above sea-level and distant from occan 12 to 15 miles. The cilimate is remarkable for its salubrily and equability. The solt has no superfor. The water supply sabundant and crops have never failed. Bearing orchards and vineyards attest the truth of the assertion that irrigation is not necessary. Besides being laborlous and expensive irrigation tends to produce malaris and consequent stekness. The Escondido raisins are unsurpassed by any produced in the world. Rev. E. W. O. Farraworth, Presiding Eider M. E. Church, Judge R. M. Widney, Rev. A. M. Hough and D. O. Milkmore, all prominent residents of Los Angeles, recently visited Escondido to choose a site for the college, and expressed themselves as delighted with its unrivalled advantages. By permission we refer to these gentlemen for confirmation of the truin of any statements made concerning the unequalled climate and soil of Escondido—'the sun-kised vale of the south.''

WHAT HAS BEEN DONE: The town-site of Escondido is in the center of the tract, and embraces among other improvements a fine hotel costing \$15,000; also a public school building of brick will cost \$200 Lands to the value of \$250,00 have been densied by the Company as an endowment for the Escondido College. Telephone connection with San Diego and other parts of the county, and a delly mail are already established. Daily stages connect with day trains of the California Southern Bailroad at Stewart's Station. Stages also leave San Diego for Escondido Monday, Wedt-seedays and Fridays at 5 a. m., returning on alternate days The Paradise of southern California!

American Fruit Evaporator!

Every fruit-grower needs an evaporator. The fruit annually wasted on the Pacific Coast would, rightly cured, so ar toward supplying this want. The evaporator is the growers' brake upon a down grade of priors. The AMERICAN is pre-sumently the fruit-raisers' machine. Its sizes grave from domestic to manufacturing wants. It makes the highest quality of work with ordinary care in handling. There is no need of making anything else. Though "e approve aslight use of sulphur, the AMERICAN is specially adapted for highest grade in unbleached werk. It places treab cut fruit first in highest and dryest heat; cures "utsurfaces at once and keeps them dry, thereby setting and making permeannt tree color, and also, thereby, at in brolling steaks, securing the highest quality in product. We place our experience in evaporating at the disposal of our customers. In some cases this gratuit-cut and Illustrated Manual sent on application,

A LIVELY IRON FIRM.

Capt. Beamana, of the Transportation Committee, reported as follows:

"The Committee on Transportation after several interviews and much correspondence with the S. P. R. R. officials nave reached the following result regarding the rate of fare for delegates and the state Convention, to be held here in August next.

To be exact, we quote the language of Chas. F. Orocker, Third Vice-President of the S. P. R. R. Company:

"We have discussed the matter fully and have decided to make the rate for the ound trip equal to the present eighting fare from any point on our system of coads in California.

This concession covers nearly thentire State, and for the delegates generally is considered as desirable an arrangement as that asked for in our recent communication to Mr. Orocker on this subject, a copy of which is hereby submitted [already published in the Times; asking a rate of \$10 for the round strp from San Francisco, Sacramento and Stockton, and not affecting the rest of the State]. In this we only asked for a special rate from San eventual to the desired to the care for these methods of the street. It is understood that they outlest street. It is understood that they on achine shop in Bouthern California, saide from the railroad track to Buena Vista street. It is understood that they on achine shop in Bouthern California, saide from the railroad track to Buena Vista street. It is understood that they on achine shop in Bouthern California, saide from the railroad track to Buena Vista street. It is understood that they on the present quarters at the corner of Main and Second streets will be given up, with the exception of an office and second streets will be given up, with the exception of an office and second streets will be given up, with the exception of an office and second streets will be given up, with the exception of an office and second streets will be given up, with the exception of an office railroad shops. A part of Main and Second streets will be given up, with the exception of an office railroad shops.

bers on the a-me footing. The fees for membership and assessments are limited to the necessary running expenses; salaries not being paid to any officer or any member of the society in any capacity. Each member is guaranteed for his one share of stock, whether he becomes a colonist or not, one town lot, size 50x125, and an equal interest in all the general assets of the society."

The advantages of the scheme are set forth as follows:

"People of moderate means who, perhaps, would be unable to hear the expense entailed upon them in the search of a single homestead, are enabled, by a community of interests, to secure such a place at a nominal cost. Another and a much greater advantage in the co-operation of a considerable number of families, would consist in the enhanced value of the lands as soon as occupied. The association does not overlook another, and important consideration to a colony thus formed, viz: the superior church, school and social facilities which numbers thus going would enjoy over isolated aettlements. The beuefits of co operation and organization are too well known to need more comment."

ollowing information about the new train between Los Angeles and San Diego: she front satural continuous as o'clock p. m.

Mr. Victor informs us that these trains will be an entirely new equipment, and will, beyond question, comprise the finest rolling stock on the costs.

After the date mentioned, the sleeper on the night express will run through both ways between San Diego and Los Angeles, instead of stopping at Colton as here-tofore.

Sunday excursion trains will soon be put on, also, between San Diego and Cosanside, running on time schedules that will permit of a sojourn of several hours at the seashore, and round trip rates will be made that will induce travel.

In domestics we are showing new brands of muslins and sheetings, cetter values and lower prices than heretofore. Finest two cases lawns ever seen just opened and marked 5c a yard. Table linen, we are selling a very good article in unbleached at 20c a yard and all linen. An elegant assortment of lawns, Organdies, Chambrays, and white goods.

Our lace curtain, our curtain net, scrims, and opaque dado, and Holland window shade departments offer you pretty, very pretty, goods at less price than ever sold heretofore. We have an extensive line of lace curtains and

we need not mention our millinery department; it is too well known to require notice. We receive new goods with every express. A full line of We have out- and overdone ourselves in parasols. They never were so eautiful or reasonable in price. They come from 25c to \$10. At the latter price we have a few sample parasols worth \$20 and sold at that figure because there is only one of a kind. Look at them even if you don't purchase.

Boys' and youth's clothing, a very large stock. Kilt suits from the recent bankrupt sale of Coleman Bros. \$5 75, sold by them at \$12 to \$15, and made of the finest imported cloths. Kilt suits from \$1 25 upwards. Sailor suits, we bridge dealer \$1.75. School suits \$2.50.

broidered collar. \$1 75. School suits, \$2 50. Shetland shawls, our own importation, from 75c to \$5. Embroidered hmere sho lder scarfs and shawls, \$1 25, \$1 95, \$2 50, \$3 5; all colors. Men's and boys' straw Lat departments. We sell boys' straw hats from 25c upwards. At 50c the hat for man or boy is as serviceable as one ordinar-We will not weary you further with dry prices. We are selling our 25c olid-colored ribbed hose for children, sizes 5 to 8\frac{1}{2}, for 12\frac{1}{2}c.

Special sales are being made daily in our ladies' and children's muslin

and gauze underwear. We request an examination; and of our stock of la and embroideries, which is really tremendous.

Important to Fruit-Growers! Mouthat the fruit season is coming as the question art es. What shall we do with our iruit? It is sawered in this way: We will take the best of it to the cannery or sell it to the fruit stores. It will pay as wages for the plotting and hanling, but what can we do with the poorer class. Well, let us dry it. No that will not do, for we dried a me hast year and cid not realise enough rat of it to pay for the trouble. Well, let us buy a drier. Not that will not do, for we dried a me hast year and cid not realise enough rat of it to pay for the trouble. Well, let us buy a drier. Not the feel than his truits come to. But, what is the feel than his truits come to. But, what is the fair last year, and it looked as fine as any versportsed fruit it ever have essen, and it costs only about 2 cents per 100 pounds Y u can see samples at A. E. ElCHAEDON's, SII N. Main street, where you o n buy the receipt we the compound. Do not fair to call and see our samples and satisfy yourself it is the A Superior Bar and Table Wat
